

26 Popular Smoothies You can Make for Your Family

Dear My Readers, Drinking smoothies is a good way to consume fruits and vegetables because they are tasty, delicious and healthy. In hot summers, it is easy to lose your appetite and cooking mood. However, you may want to eat something to keep your stomach not empty. Drinking smoothies is one of your options. Further, certain fruits contain their benefits if they are consumed in certain methods. In most cases, eating fruits and vegetables without spending too much cooking or preparation time becomes a favorite choice for busy people. My recipes will add a wider selection about making smoothies. Some recipes are very simple but I find that way would give you new special flavors. Thank you for purchasing this book. Van Tran
