

Germination (Feast of Weeds, Book 1): A Novella

A GROUP OF RUNAWAYS. A HORRIFYING VIRUS. Mary knows how to thrive on the street. She makes it her mission to keep other kids away from everyday monsters. But when she's attacked by a crazed man clutching a bloody heart she realizes there's a new kind of monster in town. A single drop of blood, and now Mary's one of the infected. Unless she can stop the virus and save her friends, the new monster in town might just be her. This is the opening novella to a post-apocalyptic Young Adult series where the runaways are the heroes, the zombies aren't really zombies, and you can't trust your memories even if they're all you have left.

Interview with the Author Q - So what makes the Feast of Weeds series special?

A - It's a mix of things, really. When I set out to write the series, I wanted to create something that I would love to read. Since I'm drawn to the post-apocalyptic genre, especially dystopian novels, that's where I started. I thought about the end-of-the-world books I've loved—you know, classic Stephen King, Octavia Butler, Max Brooks. I've always found thrilling those stories with big epidemics that reinvent the world and show what characters are really made of. I also love getting into some of the science, like genetic engineering, that would make the situations in a book plausible. Any story that promises me an intense, dark adventure is going to get my vote. The Feast of Weeds series is a mix of these genres. I wanted to create an intense, fast-paced adventure with strong female protagonists. I also wanted to do something different than the standard survive the zombie-hordes stories though I've enjoyed plenty of those stories too. In Feast of Weeds, you're going to have competing pathogens, and what might seem straightforward at first becomes something completely different later on. Even though my cast of characters are all teenagers I've

definitely had plenty of adults write me about how much they've enjoyed the series. I think Feast of Weeds hits the sweet spot of older Young Adult that will appeal to plenty of adults too. Overall, no matter what your age, the Feast of Weeds series is designed to keep you turning those pages.

Q - What order should I read the books in?
A - I've written the series with the plan of having readers go through the series in order. Technically each book is a stand-alone story, but I think the complete series would be most enjoyable in the following sequence: --Germination (novella) --Contamination --Infestation --Eradication (coming soon)

Q - Why should readers give these books a try?
A - Because the Feast of Weeds series is a fast, dark ride that turns the stereotypical zombie genre on its head! I like surprises and mysteries and thrills, so you'll find a lot of that in the series...nothing is what it seems. Even though Germination (Book 1) has only been out for a few months, it's already hit the Top Ten bestseller list on Kindle for Horror, Young Adult Dystopian, Young Adult Action & Adventure, and Post-Apocalyptic Fiction. Check out my author page here at Amazon for more details, and a full list of my available titles.
