

## A Little Night Magic (Nodaway Falls Book 1)

Olivia Kiskey has been working at the same New York waffle house since she was a teenager. She's been in love with the same man for the last four years; he's never made a move. Every Saturday night she meets up with the same friends over the same margaritas for the same old stories. But now everything is about to change. Magic is coming to Olivia's town... and she will be drawn into an age-old battle between dark and light that will threaten everyone and everything she loves. To save them, she'll need to step up and fight the demons of her past and present. It's time to discover who she really is - time to let loose the latent talents she's held in check for so long... In the vast realm of all things paranormal, *A LITTLE NIGHT MAGIC* is like rain on a scorched desert: every word I devoured had me craving more. I cannot recommend this book enough. --- Darynda Jones
