

My Experiments with Truth

Four or five years ago, at the instance of some of my nearest co-workers, I agreed to write my autobiography. I made the start, but scarcely had I turned over the first sheet when riots broke out in Bombay and the work remained at a standstill. It is not my purpose to attempt a real autobiography. I simply want to tell the story of my numerous experiments with truth, and as my life consists of nothing but those experiments, it is true that the story will take the shape of an autobiography. But I shall not mind, if every page of it speaks only of my experiments. I believe, or at any rate flatter myself with the belief, that a connected account of all these experiments will not be without benefit to the reader. Wilder Publications is a green publisher.
