

Farming in Ponds and Dams: An Introduction to Freshwater Aquaculture in Australia

A step-by-step guide to Australian freshwater aquaculture, covering everything from water quality to polyculture, and all of Australia from the tropics to Tasmania. Includes detailed information on the design and construction of dams and ponds, biology and ecology for aquaculture, harvesting, transporting and observing, planning for commercial production and much more. Nick Romanowski is a zoologist and wetlands consultant with a lifetime interest in all aspects of aquaculture.

Farming in Ponds and Dams: An Introduction to Freshwater Introduction Eels are known as catadromous - that is, they live in freshwater but migrate to the ocean to breed. During high rainfall or flood events, populations of eels are further dispersed into off-river storages such as farm dams. Most of the research in Australia has focused on pond production, however, most **Freshwater Prawns: Biology and Farming - Google Books Result** Farming in Ponds and Dams : Introduction to Freshwater Aquaculture in Publisher Hachette Australia Imprint Lothian Books Publication City/Country Sydney, **Farming in Ponds and Dams, Nick Romanowski - Shop Online for** Share to: Farming in ponds and dams : an introduction to freshwater aquaculture in Australia / Nick Romanowski.
