

## Evolution Expects (Pax Britannia Book 4)

In the heart of London a terrible metamorphosis is taking place... After more than 150 years as the supreme power on the planet, the British Empire has become a corpulent, stagnating monster. At its heart lies Londinium Maximum, a city under a near-permanent cloud of noxious Smog. More than ever, the realm of Magna Britannia needs a saviour a man like new Prime Minister, Devlin Valentine. But while London prepares for the launch of the Jupiter Station there are those who want this longed-for change to come about more quickly, people who are prepared to give evolution a helping hand. When a deadly legacy returns, Ulysses Quicksilver finds himself drawn into that pit of despair known as Bedlam. With a dangerous masked vigilante stalking the streets, a monster from Jewish myth on the loose in the East End and rival gangs fighting for control of the city's underworld there may be nothing Ulysses can do to prevent a catastrophic metamorphosis! Pax Britannia is an exciting new science fiction series, set on an alternative Earth where the British Empire still reigns and steam technology rules.
