

Advances in Ecological Research, Volume 24

The six articles in this issue of *Advances in Ecological Research* cover a wide spectrum of ecology to ecology to communities, the discussion of vegetation change on a longer time scale, and the significance of conservation, especially in the industrialized world. S.J. Hall and D.G. Raff provide something of interest to all ecologists. Several common themes are presented in this volume including the dynamics of communities with such examples as Glacier Bay and Mount St. Helens. *

SPECIAL FEATURES:* Lively selection of review on topical subjects.
