

Cats on the Counter: Therapy and Training for Your Cat

Cats are wonderful companions, but when they misbehave it can be challenging, if not outright difficult, to successfully treat the behavior problem in order to restore feline harmony to the home once again. In *Cats on the Counter* Dr. Larry Lachman uses his unique approaches, borrowed from human therapy, to analyze what makes kitty tick, and what happens when his behavior gets out of control. Using a case-by-case format, behaviorist Lachman and journalist Frank Mickadeit deal with common problems such as clawing furniture, refusing to use the litterbox or spray marking in the house, fussy eating, and fighting with other cats. *Cats on the Counter* is filled with fascinating stories, excellent advice, and empathy for both misbehaving pets and their long-suffering people. Other topics include: The Freudian Feline and Family Therapy: cat personality and structural family systems therapy The Jekyll & Hyde Kitty: cat aggression Kitty Prozac: preserving your cats mental health Ailurophobia: the fear of cats and how to treat it Kidproofing your Cat: teaching your children how to care for your cat Lassie Meets Morris/Morris Meets Simba: introducing dogs to cats and cats to cats The Final Feline Moment: pet loss, grief and how to say goodbye Holy Cats Batman!: Kitty ESP, catnip treats, and afterthoughts
