

Current Management of Hepatitis C Virus, An Issue of Clinics in Liver Disease, 1e (The Clinics: Internal Medicine)

Clinical information about Hepatitis C is quickly outdated, so Dr. Poordad has assembled expert authors to provide state-of-the-art clinical reviews for hepatologists. This issue is uniquely organized to present articles based on therapeutic regimens for certain types of patients: Regimens for the Treatment-Naive Patient; Regimens for Treatment of the Interferon-Failure Patient; Regimens for DAA Failure Patients; Regimens for the Cirrhotic Patient; Regimens for the Peri-Transplant Patient; Regimens for the HIV-Co-Infected Patient; and Next-generation Regimens: The Future of HCV Therapy. This presentation will be very clinically relevant for the practicing hepatologist.

Models of Care for the Management of Hepatitis C Virus Among Your liver is the largest internal organ in your body.
