flense /flens/ (v) to slice or strip away the skin and fat from a carcass. (n) a highly contagious disease capable of stripping away an individuals life essence. THE FLENSE SERIES DESCRIPTION(BUNKER 12 companion series)Hundreds die in a fiery train crash in northern China. A cargo ship smuggling refugees is lost to calm seas off Libya. Entire villages in Ghana are abandoned overnight.Contractured by a prepper group to investigate a series of seemingly disconnected global tragedies, a young freelance reporter, Angelique d'Enfantine, uncovers a disturbing pattern: each event is preceded by the sudden spread of a mysterious ailment and is followed by the appearance of a man dressed in black and silver who witnesses claim is the devil himself.With each event more grisly than the last, and the risk to her life growing, Angel begins to doubt that the tragedies are harbingers of an impending biblical catastrophe, but rather practice runs of a fanatical organization bent on global annihilation. Could her sponsors be using her to advance their own paranoid agenda?
