

## Hexad: The Ward (Time Travel Suspense) Book 3

Pasts and future collide in the thrilling climax to the Hexad trilogy. Dale struggles with convoluted timelines, cats named Wozzy intent on human destruction, and life gets scarier than when you realize you're out of wine and the stores are shut. Amanda fights a losing battle with reality as she finds herself trapped in The Ward, unsure whether she is genuinely insane or memory fragments of time travel are truly to blame for her confusion. Only one thing stops her losing her mind completely: half-memories of a past where life was normal and time travel was just one of those things you laughed about. Now it's not so funny.
