

Dinosaurian Faunas of China

Dinosaurian Faunas of China describes all dinosaur genera ever found in China and gives their characteristics, stratigraphic occurrence and a brief history of their discovery. The author introduces a comprehensive classification of all Chinese dinosaurs. More than 100 illustrations including those of the skeletons of many of the dinosaurs illustrate this exciting subject of paleontology. Herewith, the complete and comprehensive Chinese dinosaur fauna is being presented for the first time in English language.
