

Tracking Gobi Grizzlies: Surviving Beyond the Back of Beyond

In the tradition of Douglas Chadwick's best-selling adventure memoir, *The Wolverine Way*, *Tracking Gobi Grizzlies* creates a portrait of these rarest of bears fight for survival in one of the toughest, most remote settings on Earth. He demonstrates why saving this endangered animal supports an entire ecosystem made up of hundreds of interconnected plants and animals, from desert roses to Asiatic lynx and wild double-humped camels, all adapting as best they can to the effects of climate change. A parable of environmental stewardship in a legendary realm.
