

EMP

In a flash of searing light, the world changed. A massive solar flare has crippled the modern world and brought chaos and destruction. David Hartsman is stuck in the remote farm town of his youth on what was expected to be a short visit to check on his ailing parents. While his wife and his daughter are hundreds of miles away at home in Chicago, David must face the dangers associated with his own survival and the pressures of not being with his family. In a worldwide catastrophe, every struggle is personal. EMP is the dramatic story of one man and his struggle for survival in a world that is falling apart.
