

Ethics in Action CD-ROM (Stand-Alone Version)

This new CD-ROM adds another dimension of interactivity to your course! The ETHICS IN ACTION CD-ROM creates a helpful multimedia learning environment for your students. They'll find insightful video clips and workbook exercises that help test their knowledge and skills for various ethical dilemmas. The CD-ROM contains a total of 60 minutes of video and has several reflective questions for each ethical dilemma presented. Each module begins with a Pre-Inventory that gives preliminary information and a self-assessment that gauges the students' knowledge in the subject area. Students are then asked to select a segment and watch the role play of the ethical dilemma and answer several reflective questions. After answering the questions, the student watches a classroom discussion that brings up pertinent issues and examines the approach taken by the counselor. At the completion of each module, there is a Post-Inventory that assesses the students' competence after completing the material in the module. After each segment, the student can save, print or email their answers to the reflective questions.

Ethics in Action: Version 1.2 (Stand-Alone Version) : Gerald Corey Mar 18, 2016 - 1 min - Uploaded by Kristopher Davis
