Smoothies are one of the most popular concoctions that show up on many menus. In fact, they are so popular that there is a virtually limitless supply of recipes for different types of smoothies and people are able to enjoy them regardless of where they are, ranging from a favorite restaurant to a street fair. They have become so ingrained into the culture, especially in the United States, that they can be found virtually anywhere. Of course, some smoothies are healthier than others, as it all depends on the specific type of ingredients that are included. Furthermore, some smoothies are made for taste and others, such as green smoothies, are made for the express purpose of helping people experience better health and to prepare their bodies for certain activities such as intense athletic endeavors.
