

## Foxes 2015

Did you know that a pack of foxes is called a skulk, a fox's bushy tail is called a brush and its muzzle is called a fox face? National Geographic Foxes 2015 is a beautiful twelve month calendar filled with vibrant images of these sharply intelligent animals. Each photograph is accompanied by insightful text on feeding, habitat, or social behavior. Spacious grids provide lots of writing space, international holidays and moon phases. Proceeds from the sale of this calendar support vital exploration, conservation, research, and education programs. Earth friendly, printed with soya-based inks on FSC certified paper.
