

Deathless Collection: Books 1-3 and the Prequel Novella

WARNING: May Contain Egyptian Gods, Werewolves, Power Armor, and a World Ending Apocalypse A pyramid predating all known cultures appears without warning. Its discovery throws into question everything we know about the origins of mankind. Inside lies incredible technology, proof of a culture far more advanced than our own. Something dark lurks within, eager to resume a war as old as mankind. When it is unleashed it heralds the end of our species reign. A plague of werewolves spreads across the world. A sunspot larger than anything in recorded history begins to grow. Yet both pale in comparison to the true threat, the evil the werewolves were created to fight. Its like Indiana Jones went through the Stargate and ended up in Aliens versus Predator. - One of the authors totally biased friends. This collection gathers No Such Thing As Werewolves, No Mere Zombie, Vampires Dont Sparkle and The First Ark. Its over 1,200 pages!
