

## Mark Star Alien Induction (Mark Star Chronicles) (Volume 1)

Mark Star is under observation. Though he doesn't know it, he has abilities that can be used for great good ... or for great evil. How they will be used depends on who gets to him first. Whether he wants it or not his whole world is about to change. Mark will be recruited and trained by a race of hyper-advanced aliens and find himself battling to save his family and friends. Ultimately, will Mark be able to face his destiny? This is the first book in the Mark Star Chronicles.
