

Gaia Lives (Gaiaverse Book 2)

Gaia Dreams gave us the end of the world as we know it. Gaia Lives explores what happens next. The group of survivors in the safe zone of Cape Fair are connected to the planets consciousness, the Gaia Mind, as they create a new way of life. The planetary connection changes their lives, giving them unique talents and communication abilities. Other survivors of the cataclysms are determined to challenge the Gaians and maintain the old way of life. When conflict develops, the Gaians look to their own resources, as well as those of their child prodigy, Samantha, to be their guide in the confrontation and their hope for the future.
