

Halcyon

This collection includes all three novels in the Halcyon Trilogy of historical fantasy steampunk adventures: *The Burning Sky*, *The Broken Sword*, and *The Bound Soul*. It also includes numerous maps and a comprehensive appendix of people, places, and things described in the series.

The Burning Sky When the entire Northern Air Corps is assassinated, Taziri is the only pilot left to help the marshals chase the killers across the skies of Marrakesh. Together they uncover a vast conspiracy of deposed aristocrats, wealthy industrialists, and xenophobic warmongers plotting against the Queen.

The Broken Sword When they tried to conquer the New World, the Spaniards lost everything: soldiers, ships, wealth, and even their faith. But Don Lorenzo Quesada believes an ancient holy relic will restore his country to prosperity and honor, unless the military finds it first.

The Bound Soul A murder in a hotel lobby. A high-speed chase across the entire length of the continent. And a manhunt through the ancient and deadly streets of Alexandria. Qhora Yupanqui has always feared being alone, and now she is. Exiled from her Incan homeland, deprived of her dashing husband, and separated from her beloved beasts, she must gather her own allies to find a killer.
