

## Honest Fibs: A Collection of Science Fiction Short Stories (Short SSF Stories Book 3)

A mermaid turns out to be the perfect bait. A young man in the Badlands discovers the price of business. And a man desperate to escape his life finds out he's not the only one. These are just a few of the stories in *Honest Fibs*, a collection of speculative and science fiction short stories that explore our perception of the world around us. Is there more to the world than we can see? How far can we trust our senses? And in a digital society, can any of us tell what's real? Nicholas Rossis is a master of the craft... I found myself looking forward to coming home so I could dig into the next story. Each story pulls you into its unique little universe and takes you on a ride where the tracks are hidden, and you can't see the corners up ahead. ~ Nat Russo
