Any book that tells the reader how to kill other people without feeling bad about it is appalling and immoral. How wonderful! Nick Webb, author of *The Dictionary of Bullshit*. The world is full of charlatans, imposing their phony theories and ineffective nostrums on the rest of us, and no one is immune to their charms. Unless, of course, we join their ranks. **HOW TO BE A CHARLATAN** explains the charlatans world in ten easy lessons. It explores their psychology and that of their followers, the market for their product and the techniques of selling it, as well as providing practical guidance as to how you too may set about abusing the trust of other people for your own benefit. Each lesson comes with tables containing handy tips on matters such as how to stay ahead of the police and not get murdered, and the arguments are illustrated with examples from history's great charlatans. Indeed there are even footnotes referring to real books written by perfectly respectable authors. Dr. Williams has actually read some of them. This is a book designed to appeal to your inner vain, greedy, lustful, vengeful megalomaniac. I wish I'd written it. Richard Hugo, author of *The Hitler Diaries*. Dr Williams is a lawyer, historian, linguist, sociologist and internationally recognised author. He is the founder of the Institute for Applied Charlatanry. He has no criminal convictions and is not currently wanted by the police.
