Beautiful Succulent Gardens Surrounding ourselves with plants offers us a host of benefits that make our lives better on many fronts. Not only do plants offer us fresh oxygen while they remove harmful, airborne chemicals and poisonous gases from the air we breathe in our modern day lives, they also allow us to commune with nature, which is good for our peace of mind and overall well-being. Plants are good for the soul. In addition, plants also help reduce allergies in some people, reinvigorate our minds, reduce noise pollution and stress, and support general morale in the home and in work environments. This is why so many people dedicate much of their time and attention to gardening. The act of digging in the dirt and then watching a plant grow from a seed or a tiny start or cutting into a healthy, flourishing, and beautiful spectacle, is gratifying and brings a sense of connection with things greater than ourselves. Whether you're a seasoned or novice gardener, succulents are a great choice if you're looking to add to your
