

Escape to Earth-Fighting for Space

From the International Bestselling Author, Saxon Andrew comes the second book in the Escape to Earth series-Fighting for Space. Discovering who your enemies might be is a task fraught with intrigue and errors. The villain today may be tomorrows hero. The way things keep changing, its going to take a score card to keep track of who is the next civilization to attack Earth. However, something, or someone, is manipulating mankind and it appears theyre doing it to help Earth survive. Their handiwork is easily seen, after events unfold, but no one knows who it is or what their motives are. Once this mystery is unraveled, Lukas learns that Earth is being set up for destruction and the force coming to do it is unstoppable. All the assistance being given to him will not be enough to hold back the coming tide. Mankind has no choice but to fight for space and make the enemy fight for every inch. The action is unrelenting in Fighting for Space. Excerpt from Fighting for Space: Jinks watched the Attack Pods accelerating away from Earth and an hour later they assumed their positions. The first line was now at their designated coordinates. He looked at his display and saw them floating in space five hundred miles outside the gravity limit. VOID PROBE HAS DETECTED INCOMING SKIP TRACES!!! SKIP TRACES DETECTED!! Jinks said, Set your scanners for emergences in front of our positions. Ten minutes later Julie screamed, I HAVE A WAVE OF NUCLEAR MISSILES EMERGING INTO NORMAL SPACE BEHIND US AT THE GRAVITY LIMIT!! Jinks yelled, First Line, hold your positions! The Missile Lines will have to handle them! This Review is on Amazon for Escape to Earth-Running from Fate Ive read all of Saxon Andrews books and they were all great, even if some were a bit repetitive. But not one of them compares to this one!

Absolutely absorbing and I cant think of how to express my euphoria sufficiently. A must for all Sci Fi fans and anyone else who enjoys a great read. I just hope that the author hurries up, writes and publishes the next 10 or more of the series!
