

## Bear Sanctuary

Bear Sanctuary is a factual account of the rescue and care of captive bears in Romania and the creation of a forest bear sanctuary to give them a safe, natural environment where they can live out their remaining years. The book describes how the bears were rescued from a lifetime of suffering in small cages and run-down zoos, the veterinary care they received and how they learned to live like bears again in large forested areas where they are free to climb trees, swim in the water pools and even hibernate in natural dens. The sanctuary is managed by a Romanian animal protection group and all the bears in their care have been legally confiscated by the Romanian authorities. The book also contains information about other bear sanctuaries around the world. Illustrated with over 90 photos. For more information including overseas sales of paperback book see; [www.bearsanctuary.com](http://www.bearsanctuary.com)
