

Expatriate (Forager - A Dystopian Trilogy Book 3)

The Thrilling Conclusion to the Forager Trilogy * The mystery of who shot Ethan Jones is finally revealed in this book. * Ethan, Nanako, and the other foragers have fled Newhome after being accused of being terrorists. However, with Captain Smithsons parting words of Dont forget us, ringing in their minds, they realise the only way to save Newhome from the Hamamachi Rangers and their Skel allies is to document and expose the Rangers villainy. Yet what sounds like a workable plan is nothing of the sort, for they have to journey into the very heart of Skel territory to obtain the information they need. Leighs warning that nothing ever goes as you want or plan it to, turns out to be prophetic. An assassin, a botched raid, and the Skel and Rangers stopping at nothing to prevent them from revealing the Rangers activities all complicate matters. To add to their woes, a word whispered in Ethans ear by a new addition to their party brings his world crashing down about his ears. Moreover, should he share this information with Nanako, all her hopes and dreams for the future will be destroyed as well. The question is - how long can he keep such a secret from her?
