

My Tomato Gardening Journal

My Tomato Gardening Journal has been designed so that you can complete the different sections and follow the progress of your tomato plants and track their growing success. You will be able to use it as a reference book over and over again so that you can keep improving the results of your tomato gardening. There are spaces for 13 different species and room for two photos to be attached for each one. Included is an index to help with finding your particular plant listing and also the 2014 and 2015 calendars so you can mark dates to take action. You will find this an invaluable tool for improving your tomato growing experience.
