

Interzone #213 Dec 2007 (Science Fiction and Fantasy Magazine)

This is a back issue of the science fiction and fantasy magazine Interzone (#213 from Dec 2007) and was the best selling of the now long gone Fictionwise e editions. That popularity may well stem from one of its stories heralding Aliette de Bodards Xuyan Universe sequence and that being deliberately juxtaposed with an episode from Chris Robersons Celestial Empire series. However youll also find stories from Benjamin Rosenbaum, John Phillip Olsen, Jason Stoddard & Steve Bein plus book reviews from John Clute in Scores, another 7 book reviews in Book Zone Tony Lees reviews of 8 DVDs/Blu-rays in Laser Fodder and author Gary Gibson interviewed by Andy Hedgecock. No doubt the spectacular cover by Kenn Brown for Metal Dragon Year also played its part in this issues popularity. So Interzone is essentially a fiction magazine containing short science fiction and fantasy stories. But it covers other aspects of the genre via comment, news, reviews of books, movies, DVDs and TV. The latest issue, #255, is also on Amazon Kindle.
