

The Ascent (The Dragon Chronicles Book 2)

The battle for Eirenoch continues as the Knights of the Dragon ride into the Southern Kingdom. Still seeking his sixth and final knight, Prince Eamon frees the cities of the south one by one, incurring the wrath of the Lifegiver himself. Queen Maebh awaits the arrival of the Prophet, to whom she will present her best kept secret; one that may change the future of the entire kingdom. Meanwhile the rebel Jindala, Khalid, is greeted at Tel Drakkar by Erenoth, and is taught to follow the Path of the Dragon. His training will test his strength, resolve, and dedication to the Firstborn. Farouk, having been initiated by Jodocus as the Great Druids apprentice, continues his training in the ways of nature. His innate abilities and gift of understanding attract the attention of the Great Mother, who begins to suspect that his uncanny gifts will be a valuable tool in the battle against evil. Behind the scenes, Garret embarks on the quest bestowed upon him by his Queen, and discovers the existence of an underground society that could be recruited to aid in the battle. New characters, exciting battles, and startling revelations await you in this second installment of The Dragon Chronicles.
