Conclusion

An excerpt from the book:  
Great leaders can come from any of the 16 personality types. However, INTPs are known for being great leaders. Probably some of the most famous leaders were

considered extroverts, but history has shown that some of the best leaders were actually introverts. Some of these include: the United States President, Barak Obama; Facebook founder and CEO, Mark Zuckerberg, and; Founder and former CEO of Microsoft, Bill Gates. Below are five reasons why INTPs make great leaders.

1. They Make Decisions Based on Theories and Facts INTPs are often not hasty thinkers and love utilizing theory and facts to make decisions. They want to ensure that their decisions were made based on facts as they are thinkers and not feelers. Because of this, they always want to make sure that they make the absolutely best decisions and will use theory and thought to help make these decisions. 2. They are Great Visionary Leaders When leading a team, INTPs tend to focus more into the future or their goals and make decisions that help in the realization of these goals. They love setting a vision for others to follow. When setting up a vision, they will use logical and concrete facts about the environment and determine what works best. Because of this, they are able to share their vision well with their subordinates. They are great at showing why the vision works and describing the concrete direction everyone needs to have in order to fulfill that vision.
