

Dinosauria - Part XI: A Brief History of Dinosauria

Following the events of Dinosauria - Part X: The Twisted Combination...the stage is set for a final confrontation between Jack and Anavrin, with the fate of the universe at stake. But Jack is not ready. He must first discover how Dinosauria came into being - call it a brief history of Dinosauria - and the only way he can do that is to join Lord Anavrin himself in a Mnemosyne.
