

## Centalpha 6 Part V

Breyden hadn't expected to spend his life on the run as the most hunted man in the universe. But, a desire for truth drove him to a horrifying discovery about the supposedly perfect society in which he lived. This information drove his efforts to expose the truth about the Peoples Government and pushed him into the role of rebel leader and criminal. During Breyden's attempt to retrieve the evidence hidden at his home, that would prove the Peoples Government murdered an innocent woman and then covered it up, his father was waiting. His effort to seize this information will endanger everyone associated with Breyden and will lead him to become a slave to the very system he opposes. Trying to save his best friend, Breyden and the friend are captured and sent to an outlying world where they will literally become slaves and have to fight for their lives. These gladiatorial contests will help the government carry out their foul plans in their insatiable quest for power.
