

## The Adventures of Amanda Love

Joss Whedons Firefly meets Flash Gordon as bestselling authors Michael Angel and Devlin Church take you on a space western with more aliens, robots, cyborgs, and gunfights than you can shake a blaster at. Con-artist and adventurer Amanda Love travels the star systems of the new frontier. Amandas ample charms include the face of an angel, the bluest eyes west of Delta Vega, and a body that could give a pious man a wet dream in a skin-tight spacesuit. She and her crew of loyal misfits take their traveling pay to pray salvation show out to the lonely, backwater alien planets that dot fringe space. But her latest pay to pray con nearly becomes her last... When Amandas ship is attacked by space-going pirates, only her quick wit and skill with a starships guns save her crew. The pirates turn out to be mercenaries sent by Malco Trent, a sexually twisted, corrupt business tycoon who swears to possess Amandas beauty at all cost. Riddles from the past will decide Amandas future. Between starship battles, escaping from wolf-like alien cannibals, and gun duels right out of the Old West, Amanda Love has to delve into her past. The deals her deceased father made to secure her wealth and fame could make her a goddess...or they could plunge the entire galaxy into a war for ultimate power! This book is combines all three parts of the Amanda Love trilogy, also available on Amazon as Pay to Pray, Dogfight, and A Planet Torn. It is also available in Fringe Space Tales, a compilation of all the novels and short stories set in the Amanda Love universe of Fringe Space.
