

Landfall: Tales From the Flood/Ark Universe

Stephen Baxter's bestselling novels, *Flood and Ark* (ROC, 2009 and 2010) introduced a universe in which a handful of refugees in a primitive starship flee a drowning Earth. In the duology we see the refugees reach colony worlds they call Earth II and Earth III. The three novellas in *Landfall* answer the frequently asked question, What happened next?? The final piece, *Earth I*, is original to this collection, a trio of stories that continue Baxter's masterful world-building. Stephen Baxter is the pre-eminent sf writer of his generation. Published around the world, he has also won major awards in the US, UK, Germany and Japan. Born in 1957, he has degrees from Cambridge and Southampton. He lives in Northumberland, England with his wife.
