

The Martian Conspiracy

The year is 2071. Devastated by the loss of his wife and son, NASA engineer John Orville signs up for a new life on Mars, implementing Project Bakersfield, a plan to combat deadly Martian storms. After a military unit lands on Mars, supposedly for a training exercise, Orville discovers the true purpose of Project Bakersfield. With the military unit going rogue, and a massive superstorm threatening imminent destruction, John Orville must fight to save the colony.
