

## Phoenix Earth: The Complete Second Season

Can the surviving humans and aliens forced to abandon a dead planet millions of light years away re-seed Earth, while also preparing to face the onslaught of a third race...or will they perish on the inevitable battle for galactic supremacy???

Phoenix Earth: The Complete Second Season is a politically driven science fiction space adventure drama, which follows the tale of the survival of the humans who survived the Final Cataclysm of Earth and their descendents, the Maluans, as they struggle to re-seed Earth and overcome extinction by a superior alien race... Lorien Saraya and the thousands of Maluans and humans he has led for a year have struggled on Phoenix Earth and the moon, but new plans may help them to seed the dead planet faster than they anticipated. However, with the addition of a half million Malakarans, who were forced to leave Malakar following an attack on their planet by an ancient race known as the Planet Eaters, Lorien has no choice but to implement a new protocol, which is to seed Mars.

What unfolds in Phoenix Earth Season Two is a racially driven political space drama that follows the lives of several alien races, including the Ascendants and Phayronians, as the beings bond together to create a safe haven in Earth's solar system for all alien races in search of a new home.
