

Refuse (The Silo Archipelago Series Book 1)

Leah is a picker. It's her job to sift through the refuse and waste of the silo and sort it for recycling. On her own time, Leah loves to make homemade paper and she lives to write stories. She just happens to be living in an underground silo full of mysteries and questions, in a dystopian world that has been destroyed by mankind... and the two things she loves to do most are both illegal. REFUSE is a short story of about 10k words (about 60 pages) that takes place in the world of Hugh Howey's bestselling WOOL saga. It is the first of a three-part series that will make up The Silo Archipelago. The completed The Silo Archipelago omnibus edition is available in one single volume, both as an e-book, and in a print edition. Written with Hugh's permission, Refuse examines the issues of control, tyranny, and censorship through the lens of history. Throughout time, dissident writers have used paper and words as weapons of war against both governments and really bad ideas. REFUSE, in the spirit of *A Day in the Life of Ivan Denisovich* and *The Gulag Archipelago*, examines what would happen if there were literary dissidents in the silos of Hugh Howey's WOOL. The entire The Silo Archipelago series has now been combined into a single Omnibus edition, here: amzn.to/11kDzml
