

More Than I Can Bare

****Standalone Novel**** Nicole is twenty-seven years old and works as a financial adviser for a small bank. When a banking client she's had a crush on continues to pursue her, Nicole decides to throw caution to the wind and jump back in the dating game. The two discover they have magical chemistry and they soon become the it couple among their family and friends, but once they take their vows things take a drastic change for the worse. Tony is the man most women dream of walking into their lives and never leaving. He's young, handsome, and financially stable. After withdrawing from the world to mourn over the death of his parents, he meets Nicole who ignites a fire inside of him. She pushes him to new heights in his career and is everything he could ask for, but when she can't deliver on the one thing most important to him it sets off a chain of events that exposes a darker side of them both that neither knew existed. Angel and Dre are cousins of Nicole and Tony and they've been living single on the party scene most of their adult lives. Sparks fly when they meet but there's a question as to whether either is ready for a commitment. After some major setbacks they decide to give it one last try, but will Tony and Nicole's madness stand in their way? Or will all the connecting pieces leave everyone saying this is more than I can bare?
