Mad Max meets Cinderella A lot more than nothing - History Repeats Very Intense - Lilbit Torturously beautiful dystopian romance! - Jemina Move like the wind, protect your face, keep your eyes on the target, and dont get dead. I am the daughter of a King, but I am no princess. I am loathed by many, but feared by more. To one I was nothing, to another I am everything. I am a pawn in their game, a fighter in their ring. My name is Nada, and this is life in the underworld. This book is recommended for readers 18+yrs. It contains violence, sexual content and language which some might find offensive. It is raw, and brutal, but also in so many ways, beautiful. I would describe it as Mad Max meeting Cinderella. I hope you enjoy it!*****

ABOUT When Nothing Is All Youve Got is a thought provoking dark romance, set in a dystopian future where the world buries its problems, (those problems being criminals), in a city far beneath the ground. What would happen in a world that only sees in black and white? What happens when the murky area of grey is taken away? Who suffers for the harsh law of the world above? In the Underworld, there is much suffering and there are many innocent souls trapped in a darkness where hope and salvation are all but non-existent. Then along came Nada, a tough as nails heroine who's seen nothing but the ugly and cruel side of life and has never known soft or gentle. Under that strong facade and seemingly impenetrable shell she has built around herself, lays a girl of vulnerability. While most others have given up, many succumbing to the brutal reality of a life lived below ground, Nada has a shard of hope that not only keeps her breathing, but keeps her fighting like the caged animal she has become. At the center of the Underworld, lies the cage, the arena

of blood and death that inmates flock to in an effort to let go and forget. Nada is one of the Underworlds most prized fighters and her father is the King of this brutal Underworld. Kingsley Duke is as cold and violent as they come, but it takes hate to control hate, and he controls it with an iron fist. As fights for his daughter become harder to find in a male dominated world, he opens up the cage to males wishing to take on his ruthless spawn. His loathing for Nada is etched into every moment of her day, and the scars of such loathing run deep into her heart. Regardless of that hate, she thrives in a world she was not sentenced to, yet born in. Kingsley's Duke's most trusted soldier, the silent assassin, Shadow, was born to a good family, he knew love. He lived in a world of happiness and light, but losing his brother in a hunting accident hardened the man. When stumbling across his girlfriend being attacked by a drug addicted citizen of the world above, Shadow fights for her, he kills for her, and his sentence is one of life underground. Shadow is dropped into the darkness from the world above, and he stood up fighting and has been fighting ever since. Unlike others in his cruel world who look at Nada and see nothing but a coldhearted killer, he sees something more. Shadow can see the vulnerability under the tough skin of the volatile cage fighter. He sees it, and he wants to peel back those layers and expose the hardened warrior for who she truly is. Having something you want and love in the underworld is dangerous, because someone is always there in the darkness ready to take it away. Nada and Shadow stumble through their growing affections for each other, while careful plans for an extraction of the innocent souls trapped beneath the ground grows to a spectacular ending. When Nothing Is All Youve got is a world of darkness, cruelty and desperation, and amongst all that raw carnage, you will find a glimmer of hope.
