

## Polar Bears 2011 Square 12X12 Wall Calendar

A polar bears fur is not actually white. Each strand of hair has a hollow core that reflects visible light. Polar bears are accomplished swimmers. Some males grow to weigh well over 1000 pounds. These powerful animals are highly protective of their young and blend beautifully into their Arctic habitat. You dont have to travel far or freeze your rump to see these delightful bears. Stay warm. Observe them instead in the pages of this wall calendar.
