

Natural Dog and Cat Care 101: What You Want To Know About Nutrition, Vaccination and Herbs To Keep Your Pet Healthy and Happy

Natural Dog and Cat Care 101 was written for people who want to understand how to best care for their pets everyday basic health needs and how to ensure they live healthy and long lives. Part One - Food and Nutrition - spells out: What dogs and cats need nutritionally; How to decode a pet food ingredient label; What 5 common synthetic preservatives - found in many commercial pet foods - are linked to hyperactivity, autoimmune disease, liver disease, thyroid damage and cancer; What supplements are most important; What 17 foods can be harmful to your companions.

Part Two - Environmental Toxins - discloses: are those flea and tick collars only deadly to fleas and ticks - theres no regulatory agency looking out for you; The toxin that coat the inside of most pet food cans, pouches and bags. Part Three - Vaccines - reveals: Does your companion really need to be vaccinated every year; Known adverse reactions to vaccines; Recommended vaccine schedule based on current science. Part Four - Bach Flower Remedies - discover: How to use the little-known, user-friendly, gentle and totally safe Bach flower healing system; How to match specific remedies to unwanted behaviors in your companions and how to use the remedies to release negative emotional states and improve behavior problems. Part Five - Herbs - includes: 12 herbal formulations; 83 herbs and their actions; Contraindications, cautions and drug interactions; Herbal and supplement recommendations for 26 health conditions. Natural Dog and Cat Care 101 is highly recommended reading for all dog and cat guardians who want to honestly understand how to more naturally prevent, manage and treat health issues with their pet and how to keep their companion healthy. Its not hard to do well for your companion. You just need to know how.
