

Desert Stars

A TALE FROM THE FRINGES OF AN INTERSTELLAR EMPIRE THAT HAS FORGOTTEN ITS HOLIEST LEGEND: THE STORY OF EARTH. He was the sole heir to the Najmi camp, a young man raised by tribesmen after falling to the desert from his home among the stars. She was the sheikhs most beautiful daughter, promised his hand in marriage if she can convince him to stay. Together, they must travel to a land where glass covers the sky and men traverse the stars as easily as tribesmen cross the desert. Here, at the ancient temple dedicated to the memory of Earth, they hope to find the answers that will show them the way home. But when love and honor clash, how can they face their destiny when it threatens to tear them apart? A 100,000 word (280-320 page) novel of Gaia Nova.
