

# The Windowsill Organic Gardener: Organic Gardening For The Urban Grower

Millions of people in major cities all over the world love to cook with fresh organic vegetables, herbs, edible flowers and fresh raw sprouts. Many of them would love to grow their own and eat them right out of the garden. They would, if they only had the land, warm weather year round, and didnt have to pull weeds. People from every major city in the United States - and even from other countries - tell me: Jay, I would love to have my own garden, but I have no yard or access to land for gardening. Not to worry. You dont have to have dirt in your back yard to grow your own veggies. Ill walk you step-by-step through everything you need to know to grow your own goodies indoors, in your own house, condo, apartment or flat. You can enjoy fresh produce - and it doesnt take land! It doesnt take land to grow! No, it takes only a windowsill and a love of growing and nurturing. Im going show you methods for growing all of your favorite vegetables, herbs, and flowers right in your own kitchen or lanai organically and easily. Now you can eat all the healthy organic produce you love. Not only will it taste better and be better for you; youll have the satisfaction of knowing you did it with your own hands. Here are all the answers you need to grow nutrition and beauty in your own windowsills. You can grow year round with no backbreaking work, no weeds, and practically no pests to eat your goodies.
