

Our Right To Drugs: The Case for a Free Market

In *Our Right to Drugs*, Thomas Szasz shows that our present drug war started at the beginning of this century, when the U.S. government first assumed the task of protecting people from patent medicines. Leading politicians persuade parents to denounce their children, and encourage children to betray their parents and friends--behavior that subverts family loyalties and destroys basic human decency. And instead of protecting blacks and Hispanics from dangerous drugs, this holy war has allowed us to persecute them, not as racists but as therapists--working selflessly to bring

about a drug-free America. Last, but not least, to millions of sick Americans, the War on Drugs has meant being dep
