

The WorldThat Was Before Adam

Dr. Marks presents a plausible explanation as to why planet earth and its original life forms are possibly millions of years old and yet present life forms, of which man is the last and the highest of Gods creation, are very young - approximately 6,000 years young. The concept of Lucifer and the fallen angels existing on planet earth, possibly millions of years before God created Adam and Eve, has not been expounded upon by scientific writers and only by a few religious writers. It is possible that Lucifer and his angel-like beings descended to earth during the Mesozoic era. Interesting to note is the fact that scientific writers illustrate the Mesozoic era as being very beautiful and fruitful and full of prehistoric life.
