

Permian-Triassic Pangean Basins and Foldbelts Along the Panthalassan Margin of Gondwanaland (Memoirs (Geological Society of America))

Pp. iii, 371; numerous stratigraphic sections, maps and geological correlation charts. Publishers original dark red cloth, lettered in gilt on the spine and on the front cover, color pictorial dust jacket, sm 4to. Geological Society of America Memoir 184. Alexis du Toits insights suggesting a Gondwanan Foreland Basin are still valid today given the enormous increase in supporting information from studies of the Panthalassan margin of Gondwanaland. This volume presents seven chapters on this topic by noted authorities in the field. No ownership marks and no signs of use.
