

Study Guide for Pharmacology: A Nursing Process Approach

Each chapter in this practical and student-friendly study guide promotes learning, understanding, and application of the core content covered in the fourth edition of the parent text. More than 1,800 study questions and answers are provided. Questions include clinically based situational practice problems, more than 160 drug calculation problems and questions (many with actual drug labels), and critical thinking exercises. Question formats incorporate multiple-choice, matching, word searches, crossword puzzles, and completion exercises. Answers - with detailed math solutions and rationales where appropriate - are provided at the end of the Study Guide.
