

Captivate (Alien Cadets) (Volume 2)

Akemi and Claire have never met in the flesh, but both are victims of an alien's obsession. Akemi survived her ordeal, though she lost her body and any chance at a normal life when she became part of an alien computer. Then an explosion nearly takes out her computer. Akemi is done being a victim. She'll cross the galaxy to find out who has threatened her again. Claire is determined to survive as well. She's finally escaped the alien zoo where she's been captive for three years. Her nightmare is over. Has to be. But a lone human far from Earth has few options. And the one man who might help Claire evade her masochistic owner believes her to be a fake - an alien who's taken human form. Don't miss the latest installment of the Alien Cadet series, a far-flung space opera that follows Akemi and Claire on their tangled journey of loss, isolation, and redemption.
