

Sgt Orlan: Hero of Man

Sergeant Jack Washington Orlan has a specialized skill set and a variable emotional range. He is a man built to dominate his enemies and paint planets red. As the ruthless victor of any engagement, he appreciates sunsets after well fought battles. The graffiti on his Fleet Single Person Assault Armor is equal to the work of a master engraver; his heavy hands create things of awe-inspiring beauty as he growls at loneliness. It isn't easy being the meanest dog in the pack. Everything changed and nothing changed after Hellsbreach. The Hero of Man bounty didn't last long and the Fleet wasted no time aiming him at the next war like a weapon with a pulse. Sergeant Orlan, trained in every discipline of personal combat, never expected to be a father. There are predictable outcomes for organizations that threaten the son of Orlan. What does it mean to be a hero? Orlan has no idea.
